

# BRINGING TEXAS ENERGY TO THE WORLD

**NextDecade is a liquefied natural gas development company primarily focused on the Rio Grande LNG project and the associated Rio Bravo Pipeline in the State of Texas.**

NextDecade's Rio Grande LNG project is a natural gas liquefaction and LNG export project. Located in the Port of Brownsville in South Texas, the Rio Grande LNG project is expected to be a leader among second wave U.S. LNG projects.

## **Experienced leadership**

The NextDecade team is focused on delivering results, and has significant experience in developing, marketing, building and operating projects around the world.

## **Proven approach**

NextDecade's technology selections and project approach on Rio Grande LNG lead to development confidence and operational reliability.

## **Optimal location**

NextDecade's Rio Grande LNG project is located in an uncongested deepwater port in Brownsville, Texas, with access to a skilled labor force. Rio Grande LNG's location in South Texas offers customers easy access to abundant, low cost natural gas resources in the Permian Basin and Eagle Ford Shale.

## **PROJECT FACTS**

- 984-acre site optimally located in the Port of Brownsville, Texas
- Total capacity of 27 mtpa (6 liquefaction trains x 4.5 mtpa per train)
- 4 x 180,000 m<sup>3</sup> full-containment LNG storage tanks
- Deepwater port access with supporting marine infrastructure
- Two marine jetties, berth pocket, turning basin
- Abundant gas supply from the Permian Basin, Eagle Ford Shale and other resources
